

Softchalk

Joseph Zisk CalU Teaching and Learning Center

Softchalk - Create content with rich media, interactive exercises, and quizzes. The combination of content, embedded assessment, interactivity, and immediate student feedback increases student engagement and improves learning outcomes. Quizzes in the content may also be scored and the grade recorded in D2L. <http://softchalk.com/>

LTI – Learning Tools Interoperability

Quiz Integration

Joseph Zisk CalU Teaching and Learning Center

1. Copy the LTI hyperlink to be inserted into D2L.
2. Login to D2L and go to your course.
3. Click on Edit Course → External Learning Tools
4. Click on the New Link button

5. Add title of lesson and then paste the LTI hyperlink into the URL box.

Properties

Title *

URL *

6. Check the sign message box and the tool consumer key/secret radio button.

Key/Secret

Signature

Sign messages with key/secret with

Tool consumer key/secret

Link key/secret

7. Under Security Settings select the appropriate check boxes.

Security Settings

Send tool consumer information to tool provider

Send context information to tool provider

Send user ID to tool provider

Send user name to tool provider

Send user email to tool provider

Send link title to tool provider

Send link description to tool provider

8. Select save

Make link available to:

Current Org Unit: myArea2Learn Sandbox

Add Org Units

Save **Cancel**

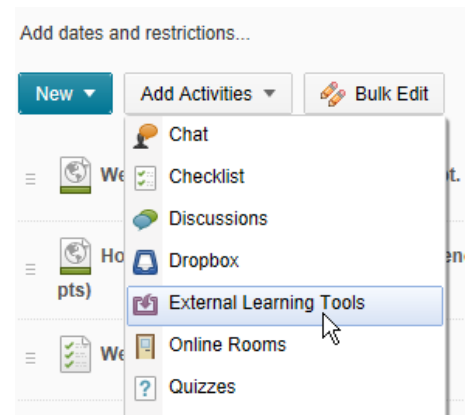

9. A 'Topics saved successfully' message will appear when the lesson has been added to the module.

10. Go to D2L content and select an existing module to include the new lesson. After selecting your module, click the Add Activities button and select External Learning Tools.

11. Choose the lesson name (that you imported earlier) from the list.

12. Once selected, the lesson should automatically be inserted into your content module.

13. At this point you will need to set the grading method by clicking on the name of your lesson in your content. See sample below.

SCORM – Sharable Content Object Reference Model

Quiz Integration

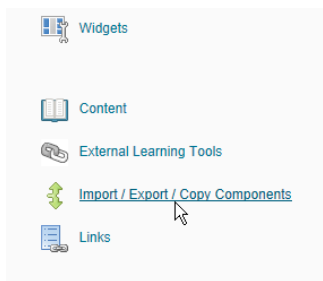

Joseph Zisk CaU Teaching and Learning Center

1. In SoftChalk Create → Package Lesson...

2. In the packaging/Student Options select the Standard zip and LMS with SCORM 1.2 radio buttons. You also have a choice of single or unlimited attempts at the quiz questions.

3. Save to a folder that you will be able to find later. You may want to set up a save folder ahead of time for all your SCORM lessons.

4. Click on Edit Course → Import/Export/Copy Components

5. Select Import Components button and Browse to the Zip file.

6. Under the import option, give the import file a name and select “Import metadata” and “Select All Components”.

7. Once the importing course material is completed, go back to course content, move the lesson into the appropriate module.

8. The grade item will appear after the first student has completed the quiz.
